Subject: Junk pet food fraud implications

Dear Professor Johnston,

Please see [open letter to the Senate of the University of Sydney](#) alleging serious misconduct in the University of Sydney Veterinary Faculty. There is much background information on the junk pet food induced animal cruelty and consumer fraud in the award winning book [*Multi-Billion-Dollar Pet Food Fraud: Hiding in Plain Sight*](#).

All veterinary schools are implicated in the junk pet food fraud. Accordingly, please advise what steps you may take to investigate and resolve the issues in The University of Melbourne.

Please share link for [free copies of Multi-Billion-Dollar Pet Food Fraud](#) with relevant departments of the university—e.g. law, medicine and dentistry—that ought to be aware of debased and corrupted veterinary 'science'.

I shall be pleased to provide more information as you may require.

Thank you for your consideration.

Yours sincerely,

Tom Lonsdale
